## Welcome to Clark County Community News

If you've read the local papers only to be disappointed that what you think should be in the news is left out, your not alone. Now you can be a part this "Good News" on-line news publication and read about many of the other things the Communities of Clark County have to share. You can also participate if you have some news to share. Just let us know at the bottom of this column.

We're looking for regular people like you & me:

- Residents of Clark County who are involved with non-profit groups
- School volunteers & professionals to talk about what's going on in the school or after hours activities
- Many sorts of people involved in "niche" activities that they would like more people to know about

We're also looking for Professionals:

- Real Estate Information on the market status or other informational information
- Loan Professionals who can tell us the interest rate forecast
- School Teachers and administrators who can give us some insight into the schools
- Technology "Gurus" including things like HD TV, computers and software
- We hope the most obvious thing is Free Press.
- For many of those who are willing to participate on a regular basis and are included in our growing network, we will run free banner ads as an additional incentive. These can be for businesses or local Community Groups that can all use the additional exposure. What do you have to share? Let us know.
